

### All Fuel Chafer Units

1. Place 2 cups of water in the bottom pan (deepest pan)
2. Place food in chafer pan (full or half pan)
3. Keep lid on the chafer to keep the food warm.
4. **DO NOT LET STERNOS (fuel cans) TO BURN UNLESS THERE IS PLENTY OF WATER IN THE WATER PAN.** Failure to keep water in the water pan will result in burning and it will ruin the chafer unit.
5. **CAUTION\*\* UNIT WILL BE HOT. HANDLE WITH CARE**

### Helpful Tips

1. Place cover back on the food when not serving, this will keep food hot
2. A Sizzling noise means the water is too low.
3. Never use the chafer unit without water in the pan.
4. The unit is designed for keeping food warm, you must pre-cook the food
